

## 2 Matboards

*Images shown not actual size.*

### Custom cuts are our specialty

At Documounts, all mats are custom cut for your order and processed for shipping in 5-7 business days.

### Getting started

Here's some information to have ready when you place your order:

Do you want single, double or triple mats?

Dimensions? Determine the outside dimensions (frame size, width x height) and the exact size of the window opening you need (not the size of the artwork). If it's a double or triple mat, we only need the information for the bottom mat.

Center or bottom weighted? If bottom weighted, what are the dimensions of the borders? Is your project horizontal or vertical?

Setback? Let us know if you'd like something other than the standard 1/4" setback on double or triple mats.

Color and quality? We offer something to fit everyone's needs, from the highest archival grade to economy mats. Be sure to choose your colors from the quality of mat you desire.

### Please note

Volume discounts: Volume discounts apply to orders of identical mats (same color, frame size and opening size).

Pricing on custom sizes: To find the price for your custom size, simply round up to the next size listed.

Shop online anytime! [www.documounts.com](http://www.documounts.com)

## Archival Quality: Bainbridge Alphasrag Mats

What is Archival Quality Matboard? Archival mats are manufactured to meet or exceed the strict conservation standards for presentation by leading museums. This matboard is acid and lignin free at both the paper and core levels resulting in a matboard that will not break down over time, preserving valuable artwork for decades. "Conservation" and "museum quality" are terms that are commonly used and which are interchangeable with archival.

For those who prefer using rag board, Bainbridge Alphasrag offers the largest selection of 100% cotton (naturally acid free and lignin free) museum quality matboards in the industry. These solid core mats are the same color throughout.

Please note: Mat size indicates outside dimensions (not opening size). For custom size pricing, round up to the next size. For double mats, double the price.

## Standard Quality: Bainbridge Papermats

What is Standard Quality pH Neutral Matboard? These mats have paper backing and off-white cores that are buffered to a neutral pH state. The result is a mat that helps prevent damage to your artwork for several years. Bainbridge papermats are ideal for artists producing high-quality artwork in large numbers.

u This price table also applies to Crescent Black Core pH Neutral Mats.

## Economy Quality: Canterbury Papermats

What is Economy Quality Matboard? Economy quality mats are manufactured using pH neutral surface papers. The core material however, is not treated and remains acidic by nature. Economy quality mats are a great option for high-volume artists looking for a cost effective material.

### Pricing

## Standard Quality: Crescent Papermat

Why use Standard Quality pH Neutral Matboard? Buffered to a neutral pH state, the off-white, pH neutral paper core and backing prevents damage to your artwork for several years. These mats are ideal for decorative framing, open end reproductions, posters and decorative art.

Documounts offers the entire line of Crescent matboards: suedes, flannels and more. Please call for more information.

**Pricing**  
Please note prices are per single mat. Double the price for double mats; triple for triple mats. Mat size indicates outside dimensions (not opening size). For custom sizes, round up to the next size.

Quantity → Size ↓	1-3	4-7	8-15	16-47	48 -249	250 -999	1000 -4999	5000+

u For Crescent Black Core Papermat pricing, see Bainbridge Acid-free Black Core Papermat price chart on page 7.

**Please note:** While we take every effort to reproduce mat colors and textures as accurately as possible, actual colors may vary. Colors are provided for general reference only.

r = White Core: Add "CSRM" before product #.  
u = Black Core: Add "6" before the product number

## Full Sheet Pricing (32" x40")

There is a 10% discount applied to all purchases of same price category fullsheet matboard in amounts greater than 10 boards. Full sheet minimum order is 10 boards in any combination of matboard, full sheet foam core, or full sheet mountboard. This minimum order helps to maintain product quality throughout the shipping process. *Please review the oversize item section on page 37 for information regarding additional shipping fees and packaging conditions.*

## Mat Blank Pricing

Matboards of any size can be ordered with no openings (called “mat blanks”). Prices are calculated by discounting the price of that size and mat type by 20%—in addition to any applicable volume discount. Please call us if you have any questions.

## Fall Out Matboard

You may request that the beveled fall out material from your mats be collected and sent along with your finished mats. There is a service charge of 15% of the applicable mat prices to cover shrink wrapping and packaging the material for shipping. Some shipping restrictions may apply.

*Please see the Terms & Conditions on page 37 for details.*

## Specialty Services

### Standard Mat Openings

Documounts offers you the option of rectangular or oval openings at no extra charge.

### Custom Mat Opening: Circle, Arch, Step & More

Matboard openings that are not rectangular or oval require a \$10 set-up fee regardless of the total mats ordered. All custom opening mats are then priced according to the size and volume for the applicable matboard.

### V-Groove & Reverse Bevels

V-grooves and Reverse Bevels are custom mat designs available through Documounts. Pricing for both design options are on a per mat basis and are in addition to the cost of a standard mat opening.

#### V-Groove Pricing

NEW! Add \$2.00 to price the price of each mat.

#### Reverse Bevel Pricing

NEW! Add \$1.50 to price the price of each mat.

### Multi-opening Mats

Please fax or e-mail a copy of any multi-opening mat you want to have produced. This allows us to review design measurements and dimensions for accuracy.

For multi-opening mats, a charge is added to the original price of the specific mat based on the total number of openings and the quantity of identical mats ordered.

#### Multi-opening Mat Pricing

Quantity Openings	1-3	4-7	8-15	16-47	48-249	250+

 Archival Black Foam Core  
 Standard 1/8" Foam Core  
 Archival 3/16" Foam Core

**Nielsen Bainbridge Archival Foam Core** u Available in 1/8" and 3/16" thicknesses. Archival foam core has a conservation grade paper based surface. Archival foam core is lighter and stronger than most paper based mountboards.

**Nielsen Bainbridge Standard Foam Core** u Available in both 1/8" and 3/16" thicknesses. Standard foam core has a smooth, clay-coated surface, is lightweight yet rigid, and highly resistant to warping.

**Bainbridge 2UB** u 1/16" thick 2UB, also known as x-board, has a chipboard core covered on both sides by a pH-neutral bright white paper. 2UB is an excellent economy backing material with a thin profile.

**Bainbridge 4UB** u Constructed of the same material as 2UB, but 3/32" thick, 4UB is an excellent choice for those looking for an economical backing solution that is stiffer than 2UB but thinner than foam core.

**Adhesive Mountboard** u With a 4UB chipboard core and a self-sticking surface, adhesive mountboard is ideal for smaller, non-archival projects.

**Bainbridge Adhesive Foam Core** u Non-archival, 3/16" foam core designed for those artists requiring a low-tack, self-sticking adhesive surface.

**Bainbridge Archival Mountboard** u Available in white and ivory and 2-ply and 4-ply thicknesses. 100% archival alpha cellulose and solid in color throughout.

**Nielsen Bainbridge Archival Black Foam Core** u Archival, 3/16" foam core ideal for digital artists and those working with blackcore mats.

Give black foam core a try!

Black foam core adds drama to your presentation. It also offers an exciting alternative for framing and bagging your artwork. It looks especially sharp when used with a black or blackcore mat. Our 3/16" thick black foam core is black throughout and is available in standard or archival.

**!** All mountboard is custom cut. For prices on sizes not listed, round up to the next size.
